

Heavy Duty Mechanics with Rigs

Location: Kitimat, BC, Canada

Job ID: R11550

Job Status: Full-time

Description

Job Summary:

We are seeking experienced Mechanics with their own outfitted rigs for our Pipeline projects in Kitimat, BC. The Mechanic will perform the maintenance and repair of on-road and off-road heavy equipment in accordance with quality, safety and efficiency standards. You're a team player who helps out when needed.

Apply today to join our Pipeline team!

Essential Responsibilities:

- Perform preventative maintenance including filter and lube services
- Diagnose faults or malfunctions and repair or replace defective parts, components or systems
- Test repaired equipment for proper performance
- Fabricate, construct, install, and repair equipment and machinery
- Demonstrate continuous effort to improve operations, decrease turnaround times, and streamline work processes
- Repair, overhaul, maintain, and service heavy trucks, trailers and heavy construction equipment
- Repair, overhaul, maintain and service fuel injection systems, exhaust systems, cooling systems, air conditioning systems, lubrication systems, engine control systems, major internal engine repairs or overhaul, installation and alignment of engines and machinery
- Repair, overhaul, maintain and service drive trains and final drives, hydraulic transmissions, power take-offs, tracked vehicle suspensions and steering, vehicle brake systems, wheel-mounted vehicle suspension and steering
- Troubleshoot and inspect equipment to detect faults and malfunctions.
- Write service reports
- Interpret work orders and technical manuals
