

Sideboom Operator

Location: Kitimat, BC, Canada

Job ID: R11547

Job Status: Full-time

Description

Job Summary:

We have several openings for experienced steep slope Sideboom Pipelayer Operators for our Coastal Gas Link pipeline project in Kitimat, BC. The successful candidates will be responsible for operating a Sideboom Pipelayer in accordance with quality, safety and efficiency standards.

Join the Ledcor team in Kitimat, BC!

Essential Responsibilities:

- Effectively and safely operates a Sideboom Pipelayer utilizing machine specific controls and machine attachments to complete all necessary tasks related to pipeline construction. This includes operating on adverse terrain, in winter operations, and/or near other equipment and power lines.
- Operates in crowded, fast-paced working environments, and exercises extreme caution with awareness of potential situational hazards to ensure site safety.
- Interprets verbal and non-verbal communication (including hand signals) from operators, ground personnel and swampers, and acts accordingly.
- Performs mechanical inspections and servicing including controls and operations, completing logbooks, performs maintenance and adjustments, ensures good housekeeping, and performs machine lubrication.
- Performs effective operation of equipment by recognizing unusual machine movements and sounds.
- Recognizes existing and potential hazards and knows how to identify these through conducting a field level pre-job hazard analysis, checking the machine for hazards and assessing any tasks before start.

Qualifications:

- Some secondary school education is required.
