2021 Field Monitors Program Update

Greetings and Danach'ea, MLIB Members;

Now that the Covid measures are relaxing, we are looking forward to putting together our Team for this year. We are certainly open to registering new monitors as well as Drivers!

The following are the minimum required tickets to be WCB compliant, must be up to date and must be carried with you at all times when going out in the field;

- WHMIS
- H2S
- Occupational First Aid Level 1
- Bear/Cougar Aware

Drivers who are interested in helping field monitors get to their destinations can bring copies of their insurance to the HR department at the McLeod Lake office, or scan them from the Prince George Business Office. Driving monitors is a great way to earn some side income!

If you need help with your online certificate courses, please feel free to speak with Stephanie Rocheleau at the McLeod Lake Office and fill out a registration form for this season. If you are in Prince George please feel free to contact Nathan Prince at the Chetwynd office to register and discuss how we can help you with your tickets and your PPE equipment

We supply you with a camera phone to help with your reporting (and you receive your bonus for each day you take photos of the surrounding wildlife activity)

A reminder that field monitors are contacted on a rotational basis. If you are unavailable, we will contact the next person on the list, in alphabetical order

Thank you for taking the time to read our correspondence and we look forward to you joining the Team!

Mussi

Sincerely,

Nathan Paul Prince
Traditional Land Use Coordinator
